

Remarks:

The amendment to the drawing is requested to correct a minor error as noted in the applicant's prior Preliminary Amendment filed on February 17, 2004. In particular, FIG 2 as filed used numeral 112 in connection with both the netlist 112 and adapter/connector 105. The Replacement Sheet for FIG 2 now uses numeral 105 in connection with the adapter, leaving numeral 112 to identify the netlist file. Formal drawings are also being filed in connection with the remaining sheets, which have not been amended. No new matter has been added.

Date: April 21, 2004

Respectfully submitted,

Kevin A. Buford
